BOOK SYNOPSIS

I know why I'm doing all this, I said. Everything I do in life is trying to get her back. I think if I do enough things . . . that maybe she'll come back. When Eddie Izzard was six, he and his brother Mark lost their mother. That day, he lost his childhood too. Despite or perhaps because of this, he has always believed in his ability to take on what many consider to be the impossible. In *Believe Me*, Eddie takes us on a journey which begins in Yemen, hops to Ireland and Wales, flirts with England then skips lightly across the seas to Europe and America. In a story jam-packed* with incident he tells of teddy bear shows on boarding school beds, renouncing accountancy for swordfighting and making those first tentative steps towards becoming an Executive Transvestite. Above all, this is a tale about someone who has always done everything his own way** and, sometimes almost by accident but always with grit and determination, achieved what he set out to do. Brimming with the surreal humour and disarming candor of his shows***, *Believe Me* tells the story of a little boy who lost his mother yet who has risen to become a star of film and television, a leading advocate of LGBT rights, an unrepentant Europhile and extreme runner of marathons, who bestrides the world stage as a colossus - in heels, of course. * Though not necessarily packed with jam ** Typically the wrong way first *** Not to mention the long and occasionally rambling digressions . . .
