BOOK SYNOPSIS

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. For courses in maternal-child nursing, care of women and children, and women's health, for both 4-year BSN-level courses and selected ADN-level (2-year) programs A humanistic, holistic approach to thinking like a nurse Olds Maternal-Newborn Nursing & Womens Health: Across the Lifespan is a family-focused text that covers maternal-newborn nursing and women's health topics with special attention to evidence-based practice, cultural competence, critical thinking, professionalism, patient education, and home/community care. Relatable and engaging, the text is built upon the philosophy that pregnancy and birth are normal life processes, and that family members are partners in care. The holistic approach helps readers develop their clinical-reasoning skills, and prepare to practice nursing in an ever-changing healthcare environment. Also available with MyNursingLab® This title is also available with MyNursingLab—an online homework, tutorial, and assessment program designed to engage students in the Maternal/Newborn Nursing course and improve results. Its guided learning path is proven to help students think like a nurse as they move beyond memorization to true understanding through application. NOTE: You are purchasing a standalone product; MyNursingLab does not come packaged with this content. If you would like to purchase both the physical text and MyNursingLab, search the Pearson website. MyNursingLab should only be purchased when required by an instructor. Students, if interested in purchasing this title with MyNursingLab, ask your instructor for the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information.
