## BOOK SYNOPSIS

The best ever RPG gun resource is back! Chameleon Eclectics original Ultramodern Firearms was a marvel of research and illustration. Now author Charles Ryan, fresh from his work on the Wheel of Time RPG and d20 Modern for Wizards of the Coast, has revisited Ultramodern Firearms and updated it for the d20 System. The text is written for gamers, not gun enthusiasts, so it is clear, well-organized, and easy to use, focusing on the features, advantages, and uses of over 300 weapons and sights. Over 200 precise illustrations complete the package. Ultramodern Firearms is an indispensable resource for any contemporary d20 game.
